SMALL BUSINESS CORPORATIONS

The threshold above which small business corporations become liable for tax has been increased to R43 000 (previously R40 000).

DEPRECIATION OF COMMERCIAL BUILDINGS

Wear and tear allowances on newly constructed commercial buildings (and upgrades) are to be introduced. It is envisaged that the rate will be 5% per year.

STAMP DUTIES

Stamp duties on short term leases (less than five years) are to be abolished.

SOCIAL SECURITY TAX REFORM AND WAGE SUBSIDY

It is envisaged that a wage subsidy be introduced to reduce the direct cost of employment, to help alleviate the high unemployment level among the youth and to facilitate social security tax reform. The proposed wage subsidy is to be introduced by 2010, to align with the proposed introduction of a comprehensive social security tax that will cover both unemployment and retirement funding.

The annual deduction for donations to PBO's is increased to 10% (previously 5%) of taxable income.

GAINS ON DISPOSAL OF SHARES

The gains realised on the disposal of shares can be taxed either as ordinary income or capital gains, depending on facts and circumstances. It is proposed that all shares disposed of after three years will trigger a Capital Gains Tax event. This proposal will take effect from 1 October 2007.

RESIDENCE-BASED SYSTEM OF TAXATION

Residents

A natural person ordinarily resident in South Africa, or physically present in South Africa for longer than a specified period, and a person other than a natural person (e.g. company, close corporation, trust) which is incorporated, established or formed in the Republic or which has its place of effective management in the Republic, will be taxed in the Republic on worldwide income. Credit will be given for any taxes paid, without any right of recovery, to the government of another country.

A natural person who is not ordinarily resident in the Republic will be a resident if he was physically present in the Republic for a period or periods exceeding

- 91 days in aggregate during the current year of assessment, and
- 91 days in aggregate during each of the 5 preceding years of assessment, and
- 915 days in aggregate during the 5 preceding years of assessment.

The above periods of physical presence need not be continuous.

The above came into operation as follows:

- in respect of a person who was a resident on 28 February 2005 by virtue of the physical presence test: Years of assessment commencing on or after 1 March 2006
- in respect of any other person: Years of assessment commencing on or after 1 March 2005.

A natural person who falls into the definition of resident because of physical presence in South Africa will cease to be resident on the day that he leaves the Republic if he remains outside the Republic for a continuous period of at least 330 full days.

Non-residents

Non-residents will continue to be taxed in the Republic on income from a South African or deemed South African source.

RING-FENCING OF ASSESSED LOSSES FROM CERTAIN TRADES

Any assessed loss incurred during any year of assessment by a natural person in carrying on any trade may not be set off against any other income of that person derived during the year where:

- the person has incurred an assessed loss in carrying on the relevant trade in at least three years of assessment during a five year period ending on the last day of that year of assessment; or
- the trade in respect of which the assessed loss is incurred constitutes:

 - animal showing by the person or any relative
 - farming or animal breeding carried on by the person otherwise than on a full-time basis

The above provisions do not apply if the trade carried on by the person constitutes a business in respect of which there is a reasonable prospect of deriving taxable income within a reasonable period. However, this provision does not apply in respect of trades listed above (other than farming) if the person has during a ten year period ending on the last day of that year of assessment, incurred an assessed loss in at least six years of assessment in carrying on that trade.

This section applies to persons whose taxable income for the year of assessment (before setting off any current or preceding years assessed loss from any trade) equals or exceeds the level at which the maximum rate of tax applies (currently R450 000) and is effective for years of assessment commencing on or after 1 March 2004.

TRUSTS

Generally, income awarded to beneficiaries is taxed in the hands of the beneficiaries, whilst income retained in a trust is taxed in the trust.

Trusts are taxed at a rate of 40%.

Excluded from the above are testamentary trusts established for the benefit of minor children and trusts which have been created solely for the benefit of persons suffering from a mental illness as defined or a serious physical disability, where such illness or disability incapacitates the beneficiary from earning sufficient income to maintain himself. Such trusts are taxed at rates applicable to individuals.

TAX LOSSES

The Income Tax Act provides that losses of a trust may not flow through to the beneficiaries for tax purposes. Losses retained in the trust may be carried forward to the following tax year to be set off against taxable income in that year.

Estate duty is calculated at a rate of 20% on the 'dutable amount' of a deceased's estate. This amount is arrived at as follows:

Determine the total value of the estate which includes all property of the deceased at date of death (property means any right in or to property, movable or immovable, corporeal or incorporeal) and all property deemed to be the property of the deceased, which includes proceeds of domestic insurance policies, benefits other than annuities payable by any pension, provident and retirement annuity fund, donations mortis causa and accruals under the Matrimonial Property Act.

Deduct from the total value of the estate the various deductions permitted in terms of Section 4 of the Estate Duty Act, to ascertain the dutiable amount of the estate.

The principal deductions include the following:

- funeral and death bed expenses
- debts and other liabilities due by the deceased
- costs incurred in the administration and liquidation of the estate
- legacies to religious, charitable and educational institutions
- an abatement of R3 500 000
- dispositions between spouses.

The definition of 'spouse' includes a person who was the partner of the deceased at the time of death:

- in a marriage or customary union recognised in terms of the laws of the Republic
- in a union recognised as a marriage entered into in accordance with the tenets of any religion or
- in a permanent same-sex or heterosexual union.

Provision is made for a rebate of the duty payable if the dutiable amount includes any property which has also been included in the dutiable estate of another person who died within a period of 10 years prior to the deceased's death.

Where spouses are married in community of property, upon the death of one of them, only half of the joint estate is subject to estate duty. If the estate of the first dying is left to the surviving spouse no estate duty is payable thereon. Estate duty will be levied on the estate of the last dying spouse.

DONATIONS TAX

BLOCKED ASSETS

The emigrant's assets, after payment of the settling-in allowance, remain blocked and fall under the control of an authorised dealer. While such blocked assets may be retained in their existing form, the subsequent re-investment thereof will generally require the prior approval of exchange control unless the investment is made via the prescribed avenues e.g. with authorised dealers, in government, municipal and public utility stock, in quoted shares and unit trusts.

The following disbursements, which are not exhaustive, may be paid from blocked funds:

- air fares to a local travel agent
- living expenses while on visit to South Africa to a maximum of R75 000 per annum per family unit (R1 500 per child and R3 000 per adult daily)

LIBERALISATION OF BLOCKED ASSETS

Emigrants may, on application, request to transfer blocked assets in excess of the limit of R4 million per family unit or R2 million per single person, subject to an exiting schedule, at the discretion of Exchange Control, and an exit charge of 10% of the amount.

REMITTANCE OF INCOME

There is no limitation on the remittance of transferable income.

DIRECTORS'/MEMBERS' FEES

Directors' and members' fees may be remitted, without limit, upon production of a resolution from the company or close corporation approving such fees, provided that the recipients are permanently domiciled outside the Republic.

MANAGEMENT FEES, LICENCES AND ROYALTIES

Prior Exchange Control approval is required and will be granted depending on the basis on which the amounts are calculated and their decision as to whether the payments are merited.

DIVIDENDS

Trading profits and dividends earned on investments are transferable to non-residents provided such income was earned after 1 January 1984 or date of emigration, whichever is the later.

Dividends from private companies and close corporations are transferable only on submission of the specified auditors' report and representation letter. Dividends from 'affected' companies with local borrowing require prior Exchange Control approval.

INTEREST

Interest may be remitted upon evidence of indebtedness, provided the rate is reasonable (generally not exceeding the prime overdraft rate).

OTHER REMITTABLE INCOME

- cash bonuses on assurance policies
- monthly pensions from a registered pension fund
- income from an inter vivos trust, subject to Exchange Control approval
- net rentals on fixed property
- income from a testamentary trust
- refunds of income tax paid on post emigration income
- income distributions from close corporations
- the difference between the purchase price and maturity value of quoted gilts

- refunds of income tax on income earned prior to emigration up to R25 000.

DISTRIBUTIONS TO NON-RESIDENTS FROM DECEASED ESTATES

Bequests and legacies to non-residents from estates of permanent residents are freely remittable.

INTER VIVOS TRUSTS

Income and capital may be transferred to non-resident beneficiaries from inter vivos trusts as follows:

OWN ASSET TRUSTS

Emigrants

Income distributions are freely transferable to beneficiaries. Any capital distributions must be credited to the blocked account of the beneficiary. Exchange Control approval is required to establish a trust of this nature after emigration.

Original non-residents

Income and capital is not transferable while the funder is alive but is credited to the non-resident's blocked account. On the death of the funder, a distribution from the trust becomes a legacy, and capital and income are freely transferable to the beneficiary.

THIRD PARTY FUNDED TRUSTS

Emigrants – Income

Where funding of the trust took place more than five years prior to emigration, the income is freely transferable. Where funding took place less than five years prior to emigration, income distributions must be credited to the blocked account of the beneficiary.

Emigrants - Capital

Distributions must be credited to the blocked account of the beneficiary if the funder is alive, or if the funder is deceased and the beneficiary has previously received income from the trust. Distributions are transferable if the beneficiary has not previously benefitted from the trust and the funder is deceased.

RESTRICTION ON LOCAL BORROWINGS

Entities comprising companies, close corporations, trusts, partnerships or estates with foreign control or beneficial interest of 75% or more are 'affected persons' and are limited in their local borrowing facilities by a formula dependent on the extent of the 'affected capital' of the borrower.

'Affected capital' includes the aggregate of:

- issued share capital and share premium
- realised non-distributable reserves
- distributable reserves
- shareholders' loans to the extent that local and foreign shareholders' loans are in proportion to their shareholding
- deferred tax balance.

'Local borrowings' include the aggregate of:

- overdrafts
- mortgage bonds
- instalment sales or leases
- suretyships
- discounting
- factoring
- local acceptance credits
- guarantees
- buybacks
- leasebacks.

The local borrowing formula is:

$$\left[300\% + \frac{\textit{South Africa \% interest}}{\textit{Non-resident \% interest}} \times 100\% \right] \times \textit{affected capital}$$

Therefore a company with a 20% local shareholding will be allowed local borrowings up to 325% of 'affected capital'.

VALUE-ADDED TAX

Only certain important provisions are summarised below.

VAT is a tax levied on the supply of goods and services by vendors in the course or furtherance of an enterprise.

Any person whose total value of taxable supplies exceeds the limit of R300 000 per annum must register for VAT. Persons with taxable supplies between R20 000 (R60 000 in the case of the supply of commercial accommodation) and R300 000 may register voluntarily.

There are currently two rates of VAT:

- Standard rate 14%
- Zero rate 0%

INPUT TAX

DENIAL OF INPUT TAX

In the following circumstances the input tax paid by the vendor will not be recoverable:

- the amount paid in respect of the purchase of a passenger motor vehicle.

No input tax may be deducted in respect of a supply unless:

- a tax invoice, debit note or credit note is held by the vendor, or
- in the case of second hand or repossessed goods, there are sufficient records of the transaction.

A tax invoice is not required if progressive regular payments are made in terms of a written contract and:

- the contract contains the supplier's name, address and registration number
- proof of regular payments is retained.

DOCUMENTATION

TAX INVOICES

Tax invoice requirements have been split into three categories:

- full tax invoice for supplies over R3 000
- an abridged tax invoice for supplies between R50 and R3 000
- no tax invoice for supplies not exceeding R50.

The following information is required on a **full tax invoice**:

SPECIAL CASES

PROPERTY TRANSACTIONS

The general rule is that the sale of fixed property by a vendor in the course of his enterprise will be subject to VAT.

VAT implications of property transactions may be summarised in tabular form as follows:

		PURCHASER	
		VENDOR	NON VENDOR
S E L L E R	V E N D O R	<ul style="list-style-type: none"> - VAT payable by purchaser - Input tax credit claimed by purchaser - If sale of a going concern then sale is zero rated i.e. no VAT payable by the purchaser - No transfer duty payable 	<ul style="list-style-type: none"> - VAT payable by purchaser - On subsequent registration as a vendor, purchaser may claim deemed input tax - No transfer duty payable
	N O N V E N D O R	<ul style="list-style-type: none"> - No VAT payable - Notional input tax credit equal to transfer duty payable, if property acquired for purpose of purchaser's enterprise - Transfer duty payable by purchaser 	<ul style="list-style-type: none"> - No VAT payable - On subsequent registration as a vendor, purchaser may claim deemed input tax equal to transfer duty payable - Transfer duty payable by purchaser

- **Sale of sectional title units**

- sale by a vendor in the course of his enterprise will be subject to VAT
- sale by a non-vendor of a property held as a capital asset will not attract VAT.

- **Sale of shares in a shareblock scheme**

- the sale of shares in a shareblock scheme is specifically excluded from the exemptions relating to financial services. The sale of these shares in the course of an enterprise will therefore be subject to VAT.

- **Sale of timeshare**

- a timeshare interest is included in the definition of fixed property. The sale of such interest by a vendor in the course of his enterprise will be subject to VAT.

- **Sale of hybrid or mixed use properties**

Where a building is let mainly to commercial tenants and the purchaser and seller are VAT vendors:

- the transaction is zero rated
- the purchaser must pay deemed output tax on the tax fraction of the residential component
- the seller may be entitled to an input tax adjustment of the tax fraction of the original cost of the residential component.

Where a building is let mainly to residential tenants and the purchaser and seller are VAT vendors:

- the full purchase price is subject to VAT
- the purchaser can claim an input tax credit on the commercial component
- the seller may be entitled to an input tax adjustment of the tax fraction of the original cost of the residential component.

Where a mixed use building is sold to a VAT vendor who is a property trader:

- the purchaser is entitled to a full input tax credit
- the seller may be entitled to an input tax adjustment of the tax fraction of the original cost of the residential component.

Time of supply

The earlier of:

- date of registration of the transfer, and
- date on which any payment is made in respect of the consideration for the supply.

COMPANY CARS

VAT on the fringe benefit of a company car is based on the cost of the car (excluding interest, finance charges and VAT).

The deemed consideration inclusive of VAT is calculated as follows:

- passenger vehicles - 0,3% per month
- bakkies/pickups - 0,6% per month.

Should the employee bear the full cost of maintenance, the deemed consideration may be reduced by the lesser of:

- R85, or
- R85 x taxable use as a percentage of total use, or
- the deemed consideration as determined above.
